

Fully fire-retardant

100% polyester

Standard choice of 5 designs in a range of colours

EXPERIENCE OPTIMUM COMFORT WITH **EASYDECK: MEDICAL DUVET** WITHOUT LOOSE COVER

For hospitals and care institutions, HeboVanDijk offers an extensive collection of single medical duvets. These EASYDECK duvets are printed with a durable print of your choice and fitted with a tuck-in strip, making a separate duvet cover unnecessary. The duvet can be washed industrially in its entirety. Guaranteed comfort for both client and nursing staff!

BENEFITS FOR CLIENT:

- more freedom of movement
- good thermal insulation and ventilation
- no pressure or friction irritation
- easy to drape
- fire-retardant for extra safety
- less dust in room

BENEFITS FOR CARE STAFF:

- time-saving when making beds
- less physical strain
- attractive duvet designs create a pleasant working environment

The standard dimensions of a single EASYDECK are 150 x 210 cm. Other sizes (for example for children's beds) and different fill weights are available on request. A different design can be chosen for the bottom cover, piping and tuck-in strip than for the top cover. The minimum production units are:

- Stock collection: min. 10 duvets (1 or 2 design(s) per duvet)
- Other collection: min. 100 duvets (1 design per duvet, front and back sides equal)
- Other collection: min. 200 duvets (2 designs per duvet, front and back sides different)

The stock collection is shown in this brochure. The metres of this collection are generally in stock. From 100 pieces, you can choose a design from our extensive collection or a design that suits a specific house style with, for example, a company logo incorporated. Please contact our Sales Department for more information.

LOOKING FOR SOMETHING ELSE?

WE CREATE A **CUSTOMISED DESIGN!**

The designs shown in this brochure are in stock available designs. If you are looking for a unique design in a specific colour, for example with leaves, stripes, circles or a children's design, we offer you a wide selection from our entire collection, starting from 100 pieces.

Based on your requirements, we use our design tool to create one or more proposals, which are then submitted to you for review.
